FlyWeb PLUS
10 watts
Direct Plug-in Adhesive Trap

The FlyWeb PLUS is an improved, modern design that incorporates the option of one or two adhesive trapping boards, a 10 watt insect lamp and an on/off switch. Flying insects are drawn to the UV light and trapped on the web-like adhesive boards. The front adhesive board can be removed for increased U.V. Light output. The attractive, compact design is perfect for discreet control and capture of flying insects. All you need is an electrical outlet – just plug it in!
