

FLY CONTROL FOR **HEALTHCARE FACILITIES**

REFERENCE GUIDE

Gardner Products | 100 Industrial Drive | Horicon, WI 53022

888-558-1990 | **GARDNERFLYLIGHTS.COM**

Insect control is a **top priority** for many types of healthcare facilities. Many of these facilities have areas that can be hot, humid environments, where insects love to harbor.

Insect light traps are an easy to implement, affordable solution to help control insects in your healthcare facility. But where should you place them for best results? Here are three key areas that are proven to catch the highest percentage of airborne pests:

BUILDING ENTRANCES/DOCK BAYS/VENTILATION SYSTEMS

Healthcare facilities have numerous openings where insects can enter, including loading docks, ventilation systems, medical office spaces, breakrooms and cafeterias where staff and patients eat. Sconce-style fly lights may be used in medical office areas if you want these traps to be discreet. Otherwise, any of the “open-faced” fly lights will work well in these locations. Use adhesive board units in larger areas (food production, packaging areas) while electric grid models are better for high volume of insects (dock bays).

FOOD PROCESSING/SERVING AREAS

Any areas within the building where food is cooked, processed, stored and packaged are potential breeding areas for insects. In these areas, **electrocution traps aren't allowed**, because of the potential of flying insect parts. Adhesive board series fly lights should be used in these areas.

BEST PRACTICES

- **DO...** Remember that insect traps are a monitoring tool. They can help you identify problem areas you need to address. But they won't fix the conditions that are attracting them.
- **DO...** Replace the bulbs in each of your fly lights every 9-12 months. Each bulb has a chemical coating that maximizes the amount of UV light it transmits. As the bulb ages, this coating wears out, diminishing the trap's effectiveness.
- **DO...** Replace the glue boards in each of your fly lights at least once a month.
- **DON'T...** Place fly lights in areas with bright lighting, such as large windows. Other light sources compete for the bugs' attention and will diminish the fly light's effectiveness.

DIRECT PLUG IN/MULTIPURPOSE

**FlyWeb
CLASSIC
(FW-9)**

**FlyWeb
PLUS
(FW-10)**

COMPACT, ATTRACTIVE, MODERN DESIGN

- Attraction range: 600-800 sq. ft.
- **1 year warranty**

PRODUCT

PART NUMBER

FlyWeb CLASSIC (Patent# 6,886,292)

FW-9

Dimensions: 3.5" w x 10.5" h x 1.75" d Color/material: light gray polycarbonate

UV light output: **9 watts**

FlyWeb PLUS (Patent# 6,886,292)

FW-10

Dimensions: 4.5" w x 10.25" h x 2.25" d Color/material: white polycarbonate

UV light output: **10 watts**

UCT-15

UNDER COUNTER TRAP

- 24-hour, non-chemical trapping
- Easy-to-use mounting bracket
- **3 year warranty**

ULTRA SLIM PROFILE

- Attraction range: 2000 sq. ft.
- **3 year warranty**

PRODUCT **PART NUMBER**
SHATTERPOOF BULBS

iFly - Stainless
iFly - White

FL-215S
FL-215WH

Dimensions: 19" w x 11" h x 2.5" d
Color/material: stainless steel, white
UV light output: 30 watts

FL-215S

white

ultra slim design

FL-65P

WATERPROOF, COMMERCIAL GRADE STAINLESS STEEL

- Dust proof and waterproof
- Uses two 12" x 22" water resistant glueboards
- Attraction range: 2500 sq. ft.
- UL approved/listed
- **3 year warranty**

PRODUCT **PART NUMBER**
SHATTERPOOF BULBS

iFly65 - Stainless

FL-65WP

Dimensions: 11" w x 53" h x 3" d
Color/material: stainless steel
UV light output: 80 watts

MX-360S

360° ATTRACTION, PORTABLE

- Attraction range: 360°, covering 5000 sq. ft.
- UL approved/listed
- **3 year warranty**

PRODUCT

MX-360

Dimensions:

Color/material:

FRUIT FLY CONTROL/SMALL FLY CONTROL

**READY
TO USE**

CONCENTRATE

Concentrate mix ratio:
1:9 with water for
maximum effectiveness.
Can be used in any
sprayer, foamer with
no additive needed.
Just mix with water.

FRUIT FLY CONTROL

- 25b EPA exempt
- Great for use in foaming applications - no foaming agent needed!
- Simplifies chemical rotation - no reapplication wait time.
- Can be used indoors directly on food processing equipment and food prep surfaces.

PRODUCT

FlyWeb Fruit Fly Spray
FlyWeb Fruit Fly Concentrate
FlyWeb Fruit Fly Concentrate (5 gal.)
