GARDNER

UNIVERSAL INSECT MONITOR CARDS

1 SIDE YELLOW STICKY TRAP - OTHER SIDE BRILLIANT BLUE

FlyWeb® INSECT MANAGEMENT

Gardner's Insect Monitor Cards are designed to capture all types of insects that harbor in and around plants. Fungus gnats, white flies, aphids, thrips, and leafminers are just a few of the species attracted to our traps.

- We have perforated the traps to increase the use options:
- Use as a 3" x 5" trap.
- Fold into triangle-shaped delta.
- Tear apart at perforation for use in smaller areas or close to base of plants.

Attracts White Flies, Aphids and Fungus Gnats

Attracts Thrips, and Leaf Miners
